

VOTER REGISTRATION CANCELLATION LETTER. Your *voter registration* needs to be terminated before you can *expatriate* your federal status/nationality. This action will also exhaust the preemptory measures needed to initiate a tort claim against the United States for injury. Furthermore, as it is probable, the people in lower government *do not* know about this *evil legal scam*, it will raise questions; accordingly, it will start exposing the *Marxist scam* to people in lower government!

Please make a *text* duplicate of this document filling in all relevant *custom* information in red, *preclude the text section above the double line*, sign, make copies (including one for yourself) and send to the respective offices listed herein; send all certified with return receipt requested.

Month/day/year

Greetings [Head of Department], Served Party:

It has come to my startling attention that participating in elections as a United States citizen generates such a citizen to commit a crime pursuant to Section 2 of the Fourteenth Amendment to the Constitution of the United States. Such crime is perceived to be sedition, which is based on the breach of political allegiance to my or a lawful state government (*emphasis added*).

As such operation of law is—simply put—unconscionable, I hereby formally and expressly DEMAND that my name, as it appears herein presented above, or any variation thereof, be removed from the voter registration roles forthwith and cancelled ab initio (*emphasis added*).

I would very much appreciate a response from your department within thirty (30) days of your receiving this claim and demand, certifying the expungement of such registration and the manner in which it was executed (*emphasis added*). Moreover, explain why this department has acted in bad faith inasmuch as it failed to advise me that it was involving me in such an artifice and scheme.

If I do not hear from you in the time specified, by your acquiescence it will be deemed that you are a knowing party to this artifice/scheme and my injuries will be figured accordingly. And the failure to certify¹ that such legal hypothesis is not correct will deem it to be true and factual.

I am greatly anticipating your full cooperation in this matter.

Sincerely,

[Name (as registered)], [state] national (*e.g. John Smith, Ohio national*)

¹ The term "certify" means that the "Served Party" has to provide a sworn statement of which is to include a statement as to the fact that the United States—*i.e.* federal government—has in good faith provided information that the government of [state] is not a lawful government under the doctrines of international law nor the original U.S. Constitution and that it is in fact a political subdivision of the United States. Such notice from the United States should also include that any citizen of the United States—*i.e.* U.S. person—that participates in any election under the 14th Amendment is a subject of Congress and/or the United States.
