RE New Medical Interventions

[Date].

Greetings,

I did not receive a response to my first inquiry, a copy of which is enclosed; or at least you did respond but failed to answer my questions. I need to know the following:

1. Is there any legal precedent that permits you, my employer, to require me to waive my rights to informed consent regarding any medical intervention?
2. What is the medical necessity of this medical intervention?
3. Are you insured for imposing and requiring these medical interventions and can I see a copy of your insurance policy that specifically covers this medical practice?
4. Will you insure or indemnify me and my family against the risks that you claim this medical intervention is intended to prevent?
5. Please cite the law imposing any legal duty upon you, my employer, to require such medical interventions.
6. Do you have any scientific proof demonstrating that the medical intervention or interventions will prevent certain risks and can I review it?

Sincerely,

[name]
