## Claim of the Life

pg 5 of 6

For the Knowledge of the Claim is with the Author :Mark-eric: Wilson

---

For with the birth of a child is the presentment of the birth certificate application wherein and upon which the Mother and Father are not made aware of the contract being created. Full disclosure not being honored.

Wherewith the Mother is named as "Informant" declaring the child abandoned and fatherless relinquishing power-of-attorney and "register-award" the State and Federal Corporation ownership and power of attorney over said child as abandoned, collateral, property and chattle. Without the knowledge or informed-authoriazation of the parents.

The Birth Certificate application being Sealed by the foot prints of the new-born, of which this very act is blatant fraud, by Law; no-living-soul under the age of eighteen has the capacity to Authorize and/or make or create any contract.

Whereas the Birth Certificate Application nor the Birth Certificate contains the Fathers signature, nor is the Father made aware of his duty and right to declare as Biological-Father his rights-duties-obligation-and-status as Father of the new-born-child. The Father also not made aware the real purpose of the public posting of the new birth and that by Law of Contracts a Contract must contain two signatures.

I :Mark-eric: Wilson herein Acknowledge and make Declaration as Biological-Father  
Of  
:Megan-anne: Wilson  
DOB  
08/06/2003
